**Editor-in-Chief**  
Bernard Paulré

2009

*hermes*

*Lavoisier*

From 2003, the *European Journal of Economic and Social Systems* will have a new publisher : Hermes-Lavoisier.

The publisher change will not lead to any changes in editorial responsibilities or policy.

The domain of the *EJESS* is not restricted to modelling or methodological approaches of dynamic evolving process in economic and social systems. The authors have to identify the main real changes and suggest the critical parameters from empirical studies.

They must highlight the directions and the importance of current changes. They would study the processes of innovation, the nature and role of new technologies, social dilemma in an evolving society, the mechanisms of change, and the management of private and public organizations in a rapidly changing context.

In short, *EJESS* must pay attention to the new economy, from a critical as well as from a positive point of view.

## Issues published

### Volume 20, No. 2/2007 – Re/Combining Knowledge and Innovative Activities

Guest Editors : L. Cassi, L. Zirulia

#### Table of contents

- Managing the Uneven Evolution of Know-How. Engineering Design as “Social Technology” – S. BRUSONI
